🏠 Basti, Uttar Pradesh

Professional Summary

Dynamic Algorithm Developer Intern proficient in algorithm design, analysis, and implementation. Mastering Python and data structures, I excel in logical reasoning and problem-solving. Collaborative and adaptable, I bring strong programming skills and a keen grasp of algorithmic efficiency to deliver innovative solutions.

Technical Skills

- Complexity Analysis
- Recursion
- Data Structures: Stack, Queue, and Linked List
- Basic Sorting Algorithms
- Python

Soft Skills

- Adaptability
- Effective Communication
- Attention to detail

Educations

Bachelor Of Science (B.Sc.)
G. S. Mahavidyalaya,   , Basti, Uttar
Jamdeeh, Basti   Pradesh
July 2018 - May 2021

Career Accelerator Program
Prepleaf by Masai,   , Bangalore
Bangalore
January 2023–present

Projects

GUI Calendar | ○

Phython

- Developed a GUI Calendar application using the Tkinter library in Python.
- Implemented a date picker functionality allowing the user to select a date.
- Displayed the selected date to the user.
- Utilized Python programming language for the development of the project.

Experiences

Computer Supervisor ,
Bharat Sanchar Nigam Limited
March 2021 - October 2022

- Managed data entries, corrected Aadhaar details, and promoted BSNL SIM usage.
- Influenced customers to adopt BSNL SIM cards.
- Facilitated BSNL SIM exchanges, ensuring smooth transitions.

Achievements

Excellence Student
